EDUCATION

Gyanmanjari Innovative University
Bachelor of Technology in Information Technology

Bhavnagar, India
July 2024 – July 2027

Sir Bhavsinhji Polytechnic Institute
Diploma in Information Technology

Bhavnagar, India
2021 – 2024

EXPERIENCE

Google Student Ambassador — Google

August 2025 – March 2026

- Promoted Gemini and Google initiatives across college campus, increasing student engagement with Google tools and resources by organizing targeted awareness campaigns
- Organized and executed technical seminars and hackathons powered by Google, fostering innovation and hands-on learning experiences for 200+ students
- Collaborated with cross-functional teams to drive adoption of Google technologies and facilitate knowledge sharing among peer communities

Founder — Fuel Lens

July 2024 – February 2026

- Founded and leading development of innovative SaaS platform for CNG tank compliance verification, addressing critical safety and regulatory challenges in automotive sector
- Designed real-time fuel station management system providing live data on fuel availability, traffic patterns, and proximity to 500+ refueling stations
- Established strategic partnerships with fuel stations and regulatory bodies to drive platform adoption and ensure compliance with industry standards
- Leading product development lifecycle from research phase through implementation, coordinating cross-functional teams to deliver seamless user experience

Campus Ambassador — UNLOX Academy

November 2025 – January 2026

- Promoted industry-focused learning programs to bridge skills gap between academia and professional requirements
- Built and nurtured student communities to support collaborative learning and career development initiatives

Campus Ambassador — SmartED Innovations

November 2025 – December 2025

- Guided 100+ peers on courses, internships, and career opportunities to support academic and professional growth
- Organized online and offline awareness activities, acting as liaison between students and SmartED team

Web Development Intern — Webdroids

December 2024 – January 2025

- Developed responsive web applications using modern frameworks, enhancing user experience and performance

Android Developer Intern — BrainyBeam Technologies

July 2023 – August 2023

- Designed and built user-friendly Android applications, gaining hands-on experience in mobile app development
- Enhanced problem-solving skills through implementation of latest Android technologies and best practices

Web Design Intern — Flourish

September 2022 – October 2022

- Created responsive web designs and strengthened foundation in UI/UX principles and web technologies

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Design, UI/UX

Backend: Node.js, Express.js, PHP, RESTful API Development, Authentication & Authorization

Databases: MongoDB, MySQL, Firebase Realtime Database

Cloud & Tools: Firebase Hosting, AWS (EC2, S3), Git, GitHub, Postman, Figma, VS Code

Specialized: WebRTC, Socket.io, API Integration, SaaS Development, System Architecture, Agile

Soft Skills: Team Leadership, Educational Leadership, Team Management, Cross-functional Collaboration
Languages: English (Fluent), Hindi (Native), Gujarati (Native)

PROJECTS

FuelLens – CNG Tank Compliance Verification Platform — *PHP, PYTHON, MYSQL*

- Designed and developed full-stack SaaS platform to digitize CNG tank compliance verification, addressing safety risks and forged certificates across fuel station network
- Built secure backend APIs with Node.js and Express.js, integrated MongoDB for vehicle records, and implemented Firebase authentication for multi-user access control
- Achieved 70% improvement in compliance verification speed; platform targets 100+ fuel stations in pilot phase

VoIP Calling & Chat Application — *MERN Stack, WebRTC, Socket.io, Tailwind CSS*

- Developed real-time communication platform with audio calling using WebRTC and live messaging via Socket.io
- Implemented authentication system and chat storage using MongoDB with responsive React frontend
- Achieved sub-300ms communication latency and supported 50+ concurrent users during testing

Crypto Market Tracking Website — *HTML5, CSS3, JavaScript, REST APIs, Chart.js*

- Integrated live cryptocurrency data using public APIs with real-time charting and automated ranking for top gainers/losers
- Processed 1,000+ API data points daily with dynamic visualization to enhance user engagement

Portfolio Generator Web Application — *HTML, CSS, JavaScript, PHP, MySQL*

- Built automated portfolio creation system with form-based data collection and dynamic template generation
- Reduced manual portfolio design effort by 90%, enabling portfolio creation in under 60 seconds

Interactive Typing Speed Game — *JavaScript, HTML5 Canvas, Firebase*

- Created gamified typing platform with falling-word mechanics, real-time leaderboard, and performance analytics
- Improved average user typing speed by 35% after 2 weeks; supported multiplayer mode for 20+ users

PUBLICATIONS

Optimization of Sorting Algorithms for Big Data and Cloud Computing Environments

Journal of Academic Trends & Innovative Research (JATIR) — Volume 1, Issue 1 — December 2025

International Peer Reviewed, Open Access Journal — Paper ID: 140030

ACHIEVEMENTS & CERTIFICATIONS

- Published research paper in international peer-reviewed journal on algorithm optimization for cloud computing
- Completed Introduction to AWS Solutions - gained cloud computing skills in AWS services and architecture
- Completed Introduction to Artificial Intelligence - enhanced knowledge in AI fundamentals and applications
- Completed Website UI/UX Designing Using ChatGPT - leveraged AI tools for modern web design workflows
- Completed Startup Course - gained entrepreneurial skills in product development, business strategy, and go-to-market planning
- Completed AI Skills Course by EduNet Foundation - enhanced knowledge in artificial intelligence and machine learning
- Winner/Participant in hackathons: CodeWave, InnoApp, FloatBot - demonstrating problem-solving and rapid development skills
- Active participant in technical events: TechManjari, Code to Impact - engaging with cutting-edge technologies
- Certificate of Participation in TATA Crucible Campus Quiz 2025
- Successfully organized multiple Google-powered technical events and hackathons as Student Ambassador
